# Preconference Masterclasses

The **Global Implementation Conference** masterclasses offer an immersive and interactive learning experience that will increase your knowledge and skills, as well as add value and strengthen your learning for the main conference.

Masterclasses are led and facilitated by implementation experts from across the world. You will have the opportunity to consider key implementation concepts, tools and skills relevant to implementation practice, policy implementation or implementation research.

Each masterclass is three hours long. Group numbers are small, and it will involve practical and interactive learning.

This **full day of interactive masterclasses** is designed to complement the Conference. There's an additional registration fee for this full day of two interactive learning sessions and lunch. All participants are also welcome to attend the drinks reception and networking event being hosted for the conference at the Glasgow City Chambers.

Masterclass sessions must be chosen in advance when registering. To help guide your choice there are three levels open to you:

-  Introductory - for those relatively new to the field, with an increasing awareness of the evidence relating to implementation science and practice
-  Intermediate - for those with growing knowledge and experience of the field
-  Advanced – for those with in depth knowledge and experience of the field

## Masterclasses Programme

08:30 Conference open and registration

---

### 9:15 Morning Masterclasses (3 hours)

Rooms 4/5	1	Exploring and understanding key insights from the science and practice of implementation: Melissa Van Dyke and Rawan Ibrahim
	2	Building organisational and system capacity to scale-up through the development of implementation teams: Kathleen Ryan-Jackson and Terje Ogden
Room 1	3	Implementation-informed evaluation: Improving theory, Implementation, and support in evolving complex initiatives: Abe Wandersman and Mary Salveron
Room 2	4	Leadership and Implementation - Exploring leadership and the role of leaders in integrating the science and practice of implementation into organisations' systems: Eleanor McClorey and Claire Burns
Room 3	5	Coaching to enable implementation and sustainment: Karen Blase and Kristen Berg Nordahl
Room 6	6	Getting the Results We Want - How to choose the right data supports within a complexity-informed approach: Jacqueline Counts and Melissa DeRosier
Room 7		

---

---

12:45 Lunch (45 mins)

---

13:30 **Afternoon masterclasses (3 hours)**

Rooms 4/5	1	Applying the insights from implementation science to the work you do: Melissa Van Dyke and Rawan Ibrahim
Room 7	2	Scaling up complex improvement in low-income settings: Dorah Taranta and Laura Ghiron
Room 1	3	“Improve-mentation” combining implementation and quality improvement to strengthen our science and implementation practice: John Øvretveit and Luke Cavanagh
Room 3	4	Exploring and understanding the role of co-creation in designing and implementing effective innovations: Luize Guimaraes and Lesley Cook
Room 2	5	Implementation science - determinants of implementation: Per Nilsen and Margit Neher
Room 6	6	Defining, operationalizing, and measuring implementation at multiple levels: Lessons learned from wraparound and systems of care: Eric Bruns and Marlene Matarese
